KIMBERLY WILLIAMS SUPERVISORY PATENT EXAMINER Continuation of 11. does NOT place the application in condition for allowance because:

The applicant argues on page 4 of the response in essence that:

Hatakenaka et al. fails to teach the print menu is displayed and the print is confirmed with a subsequent depression of the same switch. The examiner cited the designating unit as the control unit 10 of Fig. 1 (col. 4, lines 50-55). The claim language does not include the limitation of a subsequent despression of the same switch and therefore the control unit performs a subsequent designation.

The applicant further argues on page 4 of the response in essence that:

Hatakenaka et al. fails to teach selecting the image to be printed without displaying the print menu display screen.

Hatakenaka et al. teaches displaying the print menu after a print image is selected as a print subject (col. 7, lines 12-14). The claim language does not include the limitation of selecting the print subject without the print menu being displayed.
